SYNOPSIS:

On April 24 2018, I responded to a residential alarm in Woodland Hills. The alarm company showed a back door activation. Deputy Doyl and myself checked the back door that was not shut tight. The door has weather stripping that prevents the door from shutting easily. I spoke with the home owners who felt the door not being shut tight and the wind blowing it open was the cause for the alarm. The homeowners declined the offer for us to clear the house. No further action taken.

SYNOPSIS:

Deputies were dispatched to a residence in Woodland Hills on an assist with the Fire Department. It was reported that a residence had a small camp fire in their backyard, which was not allowed by the city. Fire personnel arrived and advised dispatch that deputies needed to respond because the home owner was being aggressive towards them and had made some vague threats. Deputies arrived and met with fire personnel first. Fire advised that when they made contact at the residence the fire was out, but they could still smell smoke in the air. When they made contact at the door they were told to leave by the home owner or things would get worse for them. Deputies made contact with the home owner and found that after speaking with him that there had been some misunderstanding about why the fire personnel had been at his residence. The home owner apologized for the misunderstanding and was advised that he could not have any camp fires at his residence.

on June 14th 2018 I was called out to a delayed dog bite (Follow up) where a neighbor boy entered the yard to play with a pregnant dog, and got bitten. A week after the bite, the family turned him away from allowing him to play with the dog because she had her puppies, and the Mother of the victim decided to call in the bite because she disagreed with the decision to restrict her son from playing with the neighbor dog.

Due to the new litter of puppies, quarantine at the Animal shelter was suspended by other deputies. I was called out to ensure that the 10 day quarantine was observed and that the dog was free of rabies symptoms, which she was.
