On 08/17/2018 at approximately 1400 hours I was dispatched to a complaint of dogs attacking neighborhood chickens that were contained by the reporting party, in the woodland hills area of Utah County.

I arrived and met with the reporting party, but the dogs that she had contained on a leash in her yard had been picked up by the owner without her knowing.

He did call her and tell her that he came by and found the house vacant, so he took his dogs.

She had posted pictures on the neighborhood social media web page, where the owner of the dogs was identified.

She told me of others who had similar problems, and another call came in to dispatch while I was talking to her. After investigating the situation I determined that the same dogs were involved in the three separate attacks.

The owner of the dogs was identified and cited for two counts of dog at large and one count of a dog attacking another animal.
